

Web Site Design & Development

global exposure
made simple.

The first place investors, retail or institutional, go to find information about a company is the company's own web site. It is crucial to make a good first impression and provide the information investors are looking for. Leverage StockPR's experience and expertise to create a highly effective web presence that will inform and influence potential investors.

Includes:

- Detailed Business Analysis
- Site Outline and Navigation Structure
- Content Assistance Based on Existing Business Plan and Marketing Materials
- Creative, Professional Web Site Design
- Focus on Usability for Easy Navigation
- Search Engine Friendly Coding
- Optimization for a Responsive, Fast-loading Site
- Comprehensive Quality Assurance
- Integration with the StockPR Investor Relations Suite
- Content Management System
